

# EXTRACTED

WANDERWEG  
GAMES

# Hello there!

I'm excited to present *ExtractTD*, an action-packed co-op tower defense game designed for unforgettable gaming nights with friends.

While *ExtractTD* began as a personal project, it has grown into something truly special thanks to the contributions of a talented team of freelancers who share my vision.

*Jan Forberg, founder of Wanderweg Games*

# Game Concept

*ExtracTD* is a sci-fi **multiplayer action-tower defense**

Gather your friends, become a space engineer for XTEC and protect a giant mining drill from angry space monsters by constructing a deadly maze of towers and traps!

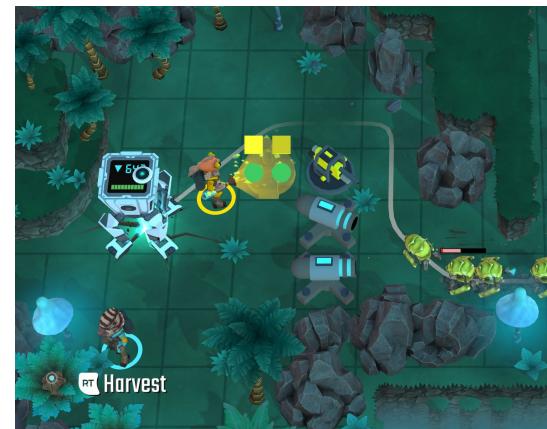

# Core Features & Mechanics

- A tower defense at heart
- Directly controllable characters
- Simple resource gathering
- Multiple classes each with unique towers
- Dynamic pathfinding with clean any-angle paths
- Co-op campaign with meta-progression
- Fully designed for 4-Player Local Co-Op

Control your characters directly

Dynamic paths: Build your own maze

# Converter Guns - Harvesting and Construction

ExtractTD revolves around **converter guns** - futuristic tools for resource harvesting and tower construction.

Gather energy points by **absorbing things** in the level. Harvest with care, since you might open a path for the attackers

Use a combination of energy points to **construct towers**. Dynamic pathfinding allows you to build your own maze.

# Converter Guns - Character Classes

There are **7 different converter guns** each with its unique set of towers and passive and active abilities

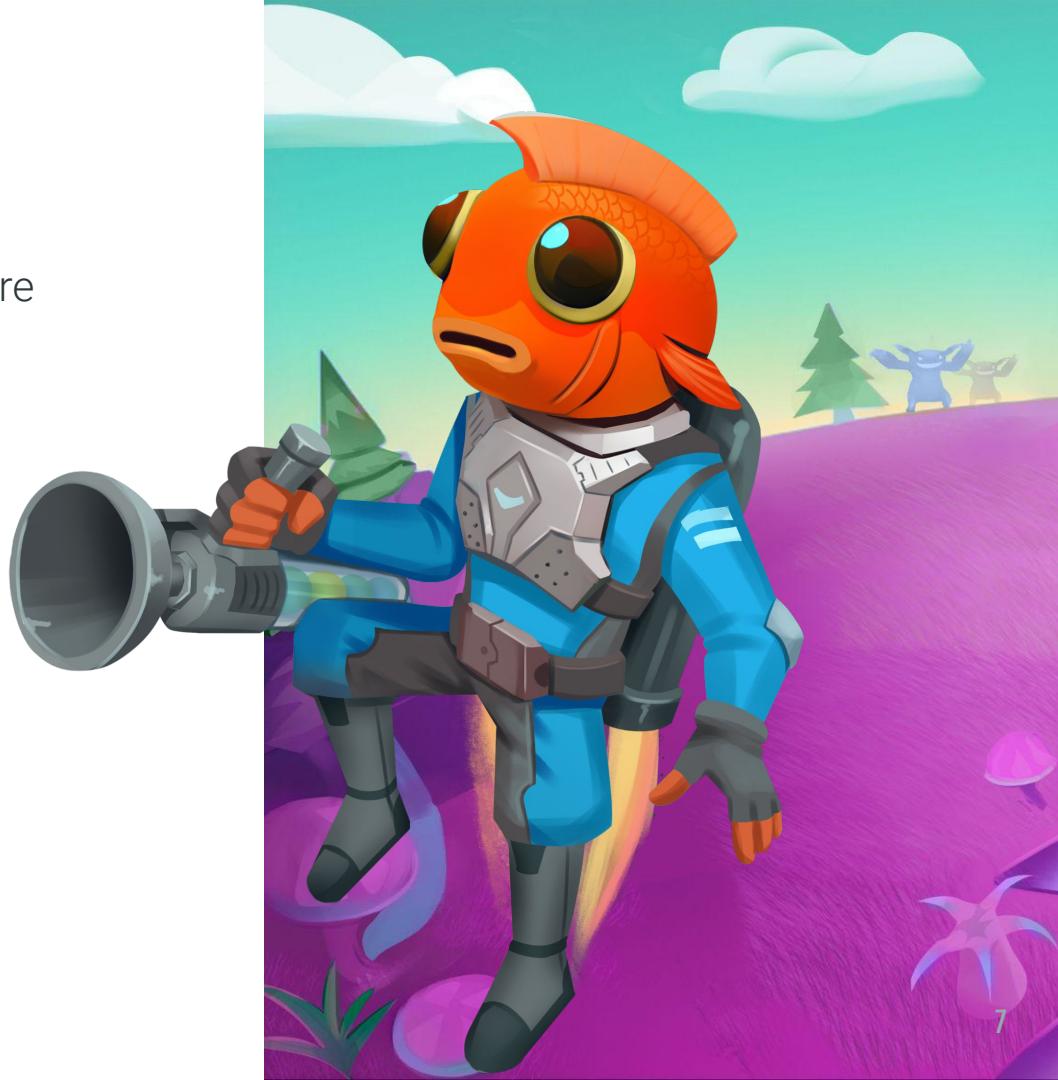

Each class has access to only 1-2 out of **6 status effects**. Play together, combine status effects and trigger up to **9 different powerful combos**

## Co-Op Campaign & Story

The **more than 40 missions** of *ExtracTD* are played as a humorous co-op campaign.

Accompanied by the support drone Harold and a clingy alien pet the players will try to unravel the true nature of their employer XTEC and the mighty resource *B.L.U.* that they are after.

# Artstyle

*ExtracTD* features **cartoony, stylized** models with textures in a **hand-painted** look to keep the mood rather lighthearted throughout the tower-defense mayhem.

Character and tower models have a silly and exaggerated look to set the stage for similarly silly jokes!

# Unique Selling Point

*ExtracTD* combines strategic tower defense gameplay with 4 player co-op fun.

Building a proper **defense maze** while trying to **deconstruct natural walls** for resources, dodging hazards such as lava puddles or carnivorous plants and finding a good tower composition for **powerful combos** poses a fun and chaotic challenge.

Combined with its multiple classes, active abilities and humorous campaign, *ExtracTD* is a title like no other.

Carnivorous plants and slowing vines can be harvested or kept alive to help the defense

Swamps will slow the attackers and can be used strategically

# Target Audience

*ExtractTD* is for players aged 12 and above, especially those who enjoy co-op gaming, with a particular focus on local co-op.

Local, online and hybrid (e.g. 2 players on one machine, 2 players at another) co-op support ensures that no one is left out.

# Community Engagement

*ExtractTD* comes with a level editor and the option to host your own campaigns.

This opens doors for map challenges and invites players to share their self-made content.

Global high scores for missions are tracked via Steam and shown as ingame challenges.

# Market Analysis

The growing indie game, almost catching up in revenue to triple-A titles, shows a great acceptance of indie game titles among consumers.

Tower Defense and co-op titles enjoy high popularity, with *Steam* even featuring a tower-defense themed sale in summer 2024.

While competing with established tower defense titles, *ExtracTD* occupies a niche space with its action gameplay, co-op campaign and 4 player local co-op.

Released on *Steam*, the world's largest PC gaming platform, *ExtracTD* leverages access to over 120 million monthly active users, particularly indie-friendly audiences.

# Timeline

- **March 2023:** Project start as solo developer
- **September 2023:** Stable design that resembles the current one
- **November 2023:** Freelance co-operations for artwork begin
- **April 2024:** First public appearance at CAGGTUS Leipzig (Indie Ground)
- **July 2024:** Steam page and free demo goes live
- **August 2024:** Appearance at Gamescom
- **December 2024:** Demo update
- **March 2025:** Planned release

# Current Budget

## ***Development***

*ExtracTD* is mainly developed as a part-time solo project.

With the project nearing its completion, further development budget is only required for freelance work for polishing and is estimated at another 1000€ from January to March 2025.

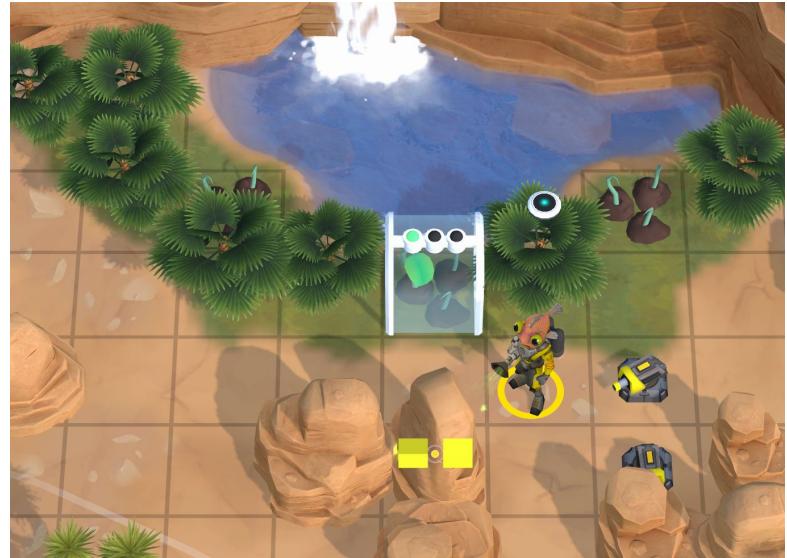

## ***Marketing***

The commercial success of *ExtracTD* will mainly scale with the investment in marketing. Due to budget limitations this will be kicked off with around 2000€ in early 2025 and then scaled up with sales revenue if possible.

# Target Platforms

The game will be released on the **Steam** platform for **Windows PC** in 2025. It has full keyboard and controller support and works well with the **Steam Deck**.

However, *ExtractTD* is a natural fit for co-op centric platforms such as the **Nintendo Switch**. We are open to explore options in that regard.

# Marketing

With only very little social media presence we have been able to reach around 500 wishlists on Steam since August 2024.

We are actively looking for a team member in marketing and are open to discussing marketing strategies.

Our free demo has received quite positive feedback and helps building our community on Discord

OriginalConcept 12.08.2024 21:22

Hi! Just wanted to say how much I enjoyed the game in co-op. Can't wait for the full release!

promx 26.09.2024 05:20

Hey! I usually don't join discords but wanted to hop in here just to say this game is AWESOME and I really am excited for the full version. I'm actually surprised more people haven't heard of it since it's really good. Is the full version still on track for later this year?

JohnnyKarango 06.04.2024 16:49

Hey wir hatten heute viel Spaß beim tower defense zocken. Vielen Dank ich freu mich auf regelmäßige updates

## Demo
